

CONSTRUCTION ALERT – August 22, 2008

Beginning on or about the week of August 25, 2008, construction will be occurring on:

Location:

Jefferson Street (side opposite the railroad yard) between the east branch canal and Canal Street. This work will consist of installation of storm sewers and will last approximately two to three weeks.

Traffic Pattern Changes:

Construction will occur in the shoulder of the roadway. Traffic lanes will be narrowed, but maintained through the area of construction with Traffic Officers onsite. There will be no shoulder in this area.

Traffic Officers will assist with directing traffic as needed. Traffic enforcement will be in effect.
